## PROFILE

A highly skilled Front-End Developer with over 3 years of experience in designing, developing, and maintaining responsive web applications and websites. Proficient in HTML5, CSS3, JavaScript, jQuery, and React.js, with expertise in cross-browser compatibility, performance optimization, and UI/UX development. Adept at collaborating with cross-functional teams to deliver dynamic, user-friendly applications across industries such as EdTech, CryptoTech, and FinTech.

Passionate about building scalable, high-performance web and mobile solutions while integrating with backend services for interactive applications.

## WORK EXPERIENCE

### MVG Digital Consulting Pvt. Ltd, Chennai.

Front-End Developer

March 2022 - Present

- Over **3 years experience** in developing and maintaining web applications using HTML5, CSS3, JavaScript, JQuery, React Js with Cross Browser unit testing in multiple operating systems.
- Developed responsive and user-friendly web interfaces
- Conducted code reviews, identified and resolved issues, and ensured code quality.
- Integrated API with back-end services to deliver dynamic and interactive web applications.
- Collaborated with cross-functional teams to design, develop, and maintain web applications.
- Developed responsive and user-friendly web interfaces using HTML, CSS, and JavaScript. Implemented client-side functionality, optimizing performance and usability.
- Proficient in various testing levels, including performance, functional, integration, system, regression, and user acceptance testing.

## PROJECT EXPERIENCE

- Created the onboarding phase using **Ionic in a mobile application and then implemented Firebase authentication to securely manage user login and registration.**
- Developed a Python-based solution to read invoice data, extract relevant details, and convert it into JSON format. Integrated the processed data into a web form using HTML and jQuery, enabling dynamic population with editable options for seamless user interaction.
- Created over **15 + websites** using HTML, CSS, JavaScript, jQuery and WordPress.
- Implemented unique QR code generation and integrated Datatable and Chart.js for data visualization and management.
- Developed responsive and interactive web pages, ensuring cross-browser compatibility and optimal performance.
- Designed and developed the user registration flow and admin flow, focusing on both design and UI development.
